### ICEE-PDRP 2019 VENUE

Bhaktapur, Nepal

## Objectives

Earthquake Safety and Post Disaster Reconstruction are challenges for any country in the world. Today, Nepal is facing the same challenges after recent 2015 Gorkha Earthquake. Therefore, researchers, academicians and politicians are working together to find new solutions to face these challenging global issues.

### Message from Chairman

After the successful organization of the first ICEE-PDRP in April 2016, I, behalf of ICEE-PDRP committee, feel appreciated and highly encouraged to organize the second conference with greater enthusiasm and for better purpose in April 2019.

As, always, our objective of arranging such conference is to make experts and academicians from around the world get together at a platform to understand the local and global issues of earthquakes and reconstruction planning with a view at side to preserving the invaluable movement of Bhaktapur, which have been challenged by Gorkha Earthquake 2015. In fact Bhaktapur is a blend of northern art and southern mythological philosophy. The pagoda and Shikhar style temples, artistic private houses and other cultural and historical heritages are the major monuments that Bhaktapur inherits from earlier generations. More importantly the challenge of balancing safety against preservation of the architectural and artistic features of historic structures always remains a pressing issue to address.

The organizing committee would highly appreciate your unflinching support.

As the chairman of the committee, I look forward to welcoming you at an ancient city in April 2019.

# Objectives

Earthquake Safety and Post Disaster Reconstruction are challenges for any country in the world. Today, Nepal is facing the same challenges after recent 2015 Gorkha Earthquake. Therefore, researchers, academicians and politicians are working together to find new solutions to face these challenging global issues.

The aimed objective of the 2nd International Conference on Earthquake Engineering and Post Disaster Reconstruction Planning (ICEE-PDRP 2019) is to bring together the international researchers, the academicians and the professionals, who are interested in scientific divulgation from all over the world to present and discuss their research findings and development activities in the field of Earthquake Engineering and Post Disaster Reconstruction Planning.

ICEE-PDRP 2019 features unique mixed topics of Earthquake Engineering and Post Disaster Reconstruction Planning to help accelerate the advancement of science in these areas and learn from each other. This conference provides opportunities for the delegates to establish research relations and to find global partners for future collaboration.

Submitted conference papers will be reviewed by scientific committees of the Conference and all the ICEE-PDRP 2019 accepted papers will be published in ICEE-PDRP 2019 proceedings.

The 2nd International Conference on Earthquake Engineering and Post Disaster Reconstruction Planning (ICEE-PDRP 2019) will be held in Bhaktapur, Nepal, during 25-27 April 2019. We sincerely invite you to join us with your latest researches/studies. We believe that your interest and support will be a great impetus to the enhancement of these subjects.
